Happy Spring!

The weather is changing, flowers are blooming and pollen is EVERYWHERE! The rumble of lawn mowers has begun and the warmer temperatures lend themselves to many road construction and repair projects.

We hope that you have your allergies under control, that you have raked away the dead of winter and that you are looking forward to a spring filled with hope and happiness!

Your Landmark Insurance Team

Introducing Landmark Intern Allie Anders

April is National Internship Awareness Month and Landmark Insurance and Financial Group is celebrating our inaugural intern,

Allie Anders. Allie has been a Landmark intern for almost six months. It has been a pleasure to get to know her as she has worked closely with our CEO, Jill Hall, to gain some hands on knowledge in the world of investments. Our very first internship experience has been a WIN WIN.

We will miss you Allie!

The Savvy Independent - Laura Morrison

If you have a seasonal business or a business that peaks in warm weather months now is the time to think about additional staffing. Seasonal employees need to be treated as new hires in terms of paperwork and though it is not likely that you will provide benefits to part-time employees you should still provide them with a copy of your employee handbook so that they have a clear understanding of your expectations. Remember to check the minimum wage guidelines as some states will be implementing wage increases effective July 1, 2017.

Keep in mind that relocating even temporarily requires you to move some personal belongings. Landmark stands at the ready to provide renters insurance to cover those personal items. Landmark Insurance & Financial Group offers Auto, Home, Life, Health and Employee Benefit Insurance as well as Investment products.

I hope to see you at Landmark very soon!

Mr. McTidbit - Ryan McClenahan

You may have noticed that there seems to be road construction or paving taking place on so many of our area highways and byways. Many times road work can lead to stone chips on your windshield. Glass breakage is one of the many things that comprehensive coverage on your auto policy can take care of. If you have this coverage, though you may have a deductible, the cost will be far less than having to pay for the new windshield totally out of pocket.

If you have questions about glass breakage coverage give me a call at **410-651-2110**. Claims are my specialty and after all, isn't that why you have us?
